Planned Power Outage to Affect 1,700 Customers in Parts of Sturgeon Falls

(Sudbury, ON) Greater Sudbury Hydro (GSH) is advising customers of a planned power outage in parts of Sturgeon Falls on **Sunday, October 25, from 10 a.m. to 2 p.m.** Approximately 1,700 GSH customers will be without power while Hydro One completes essential work.

Not all properties within the area will lose power. The outage follows electrical connections rather than neighbourhood boundaries, meaning some streets or portions of streets will lose service while nearby properties will continue to have power.

Customers can confirm whether their property is affected by visiting our [planned outage webpage](#) and entering their address in the search option on the right side of the map. For assistance, contact GSH Customer Service at 705-753-2341.

GSH recognizes the inconvenience this interruption may cause and thank customers for their patience while this necessary work is completed.
